### **"Our Eyes"** photo exhibit

The J.E. Smith GALLERY has taught people who are homeless in our community traditional black and white photography as a means of artistic empowerment to encourage positive self-esteem, and to build community.

There are ample venues where one can view photos of the homeless, but what happens when we turn that concept around and see life through the eyes of the homeless?

Just how do those without homes spend their time?

See for yourself from behind the homeless camera looking into the world as a moment in time is captured.

All proceeds will go to the artist, Aurora, Inc., and toward the "OUR EYES" project itself.
